before getting started on the individual work.

Student 6

David was terrific. Really nice and approachable and always was on top of his work.

Student 7

David was a great GSI. He was always understanding and wanted us to succeed.

Student 8

David was an awesome GSI; very approachable and extremely helpful. His laidback teaching philosophy is perfect for this kind of course, which can be inherently stressful.

Student 9

David was an excellent GSI. He came to class ready to get through the day's work and to explain difficult concepts to his students. David made lab as relaxing as it could be with music to lighten the mood of our labs. David did an amazing job of explaining each concept to the class in a way that was different from the lecture explanations and so we were able to understand each concept fully.

Student 10

I think David did a better job after exam 1, because he had a better idea of where students might need clarification/help.

Student 14

I really enjoyed his lab, and how he reviewed the concepts in an understandable way before we moved on to the lab. If anything I would have liked more work with the whole class, instead of just on our own. Overall he was a really great teacher.
